

# Create Awareness with a Button!

Did you know that if you write on a button with a dry erase marker it will rub off later? It's true!

**Follow these steps to create awareness** during your Circle of Sisterhood fundraising event(s):

- 1) Choose a statistic you will use for each day of your event(s). Just write the appropriate number on the button. We have provided some on the back of this form.
- 2) Write the number you will be talking about that day on your button (which you will be proudly displaying where anyone you run into can see it).
- 3) When someone asks you "what's the number for?" you reply with the statistical information as one of the reasons you are raising money for the Circle of Sisterhood. See the example below.
- 4) At the end of the day, use water and a paper towel to rub the marker off the button to prepare it with the next statistic.
- 5) This is a great way to raise awareness about the global issues affecting girls and women and the Circle of Sisterhoods efforts to remove barriers to education.

Ex. Only 7% of the world's population has college education. We are raising money for the Circle of Sisterhood – a charity representing all sorority women working to uplift girls and women from poverty and oppression through education.
